

FLA Geoprodukter AB merged into ViaCon AB.

2020-12-18

During the latter part of 2019, our owner FSN Capital decided to separate Saferoad's and ViaCon's operations. As a part of the process, it is now decided that FLA Geoprodukter AB will be merged into ViaCon AB from 2021-01-01.

ViaCon is a leading provider in the European market with production and sales of corrugated steel pipes, plastic pipes and corrugated steel structures. Bridges and culverts, geotechnical- and stormwater solutions are the major product areas for the group.

During 2020, ViaCon carried out extensive work focusing on a new central strategy and implementation of a new group structure to develop the business and strengthen the customer offering.

With the new structure in place, all parts of FLA Geoprodukter's operations and employees from 2021-01-01 will be part of ViaCon Group's Swedish sales company ViaCon AB. All customers and suppliers are welcome to ViaCon AB. With the combined competencies, ViaCon will after this merger be an even stronger partner in the Swedish market.

"With the new organization in place we see great potential to meet our targets of growth and profitability that now are a part of the Group's central strategy. We also look forward to continuing to develop our business with the aim of becoming an even stronger partner for our cooperating suppliers and customers in Sweden," says Stefan Nordström, President and CEO, ViaCon Holding AB"
